

# PIVOTING ARM CLEARANCE BAR

## Drive-Thru Accessory

Our Clearance Bars protect your drive-thru and overhead equipment by clearly marking maximum vehicle height — reducing risk while reinforcing safe, organized traffic flow at entry points.

**Auto-pivot on impact.** If struck, the arm automatically pivots and returns to its original position — minimizing damage and downtime.

### Double lane drive-thru?

Use a Double Clearance Bar on your center curb to safeguard both lanes simultaneously. Available in left-hand, right-hand, or double arm configurations.
