

FABRIC SEG LIGHT BOX

Immersive and vibrant illumination

The Fabric SEG light box is our most popular display for vibrant indoor advertising. This backlit illuminated light box offers a frameless appearance, highlighting elegantly the vivacious colors of your content. Printed on Fabric Silicone Edge material, your graphic is installed or updated within minutes on its frame, making change-outs easy and fun.

Made to order in any size, large formats Fabric SEG displays create an immersive experience, memorable for any type of audience.

Weight Available Upon Request

Example:

Outside Light Box Dimensions*

30" x 40"

SGSB Product Weight

25 lbs

Exact size and weight depends on the client's individual needs. Refer to your DSA point of contact for this information.

*A bleed of 1" needs to be added to your graphic file on all sides to determine the graphic size based on the outside dimensions.

GRAPHIC MATERIAL

- ✓ We will advise the type of graphic you need based on your intended environment.
- ✓ We can manage your graphic prints & updates with a subscription model.

The Graphic tucks into the channel of the light box thanks to a sewed silicon edge.
